INFORMATIONAL BULLETIN NO. 1100

Trapper Jack's Professional Macadamia Nut Rodent Lure For Baiting Snap Traps, Glue Boards and Live Catch Traps

TRAPPER JACK'S PROFESSIONAL MACADAMIA NUT RODENT LURE is a safe, highly effective, economical, easy to use product formulated for professional baiting of all rodents, skunks, opossums, squirrels and gophers.

Prepared from natural food products: Macadamia nuts, molasses, cereal grains, sugar, eggs and salt, incorporated in our all-weather lure, which is formulated to remain pliable and aromatic at temperatures varying from below freezing to temperatures above 150 degrees Fahrenheit.

To be used in effective, professional rodent control programs, as a conventional lure when baiting snap traps, glue boards and live catch traps. Place a small portion on the glue board or trigger or pan of the trap, squeezing the product gently to affix the product to the trigger. This natural food formulation is highly aromatic, appealing and palatable for optimum acceptance by all rodents, as well as raccoons, skunks, opossums, squirrels and gophers.

Will effectively lure wary rodents to your trap, glue board or cage, while eliminating the need to use messy, spoilable or less dependable lures and baits. THIS SUPERIOR FORMULATION CONTAINS SECONDARY ATTRACTANTS OF CERIAL GRAINS, WALNUTS, MOLASSES, EGGS, SUGAR, and SALT.

Due to the extremely aromatic characteristics, we suggest that you use this product sparingly. Extensive field testing has determined that each POCKET PACK will readily bait up to ten (10) snap traps, glue boards, bait stations or live traps. In order to assure the freshness and long-lasting quality of this product, store this product in a cool, dry area away from products with strong odors.

CONTAINS NO PESTICIDES OR POISONS AND CAN BE USED IN FOOD PROCESSING PLANTS, HOMES, HOSPITALS, RESTAURANTS, SCHOOLS, AND OTHER AREAS WHERE THE USE OF PESTICIDES AND POISONS ARE LIMITED OR RESTRICTED.

NOTE: Regardless of the type of trap or type of bait you use, TRAPPER JACK'S recommends, in the best interest of achieving the highest success ratio in your endeavor, KEEP PESTICIDES, HUMAN ODOR and OTHER FEAR STIMULATING ODORS AWAY FROM TRAPS, BAITS and LURES! The wearing of gloves when handling traps, baits and lures may substantially increase your success in professional rodent control.

NOT RECOMMENDED FOR HUMAN CONSUMPTION

TRAPPER JACK'S PROFESSIONAL MACADAMIA NUT RODENT LURE comes in handy, durable 6 gram POCKET PACKS.

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

1 PRODUCT CHEMISTRY AND COMPANY IDENTIFICATION

Product Name :Trapper Jack's Professional Macadamia Nut Rodent Lure
Intended Use :Rodent Lure, to be used in effective, professional rodent control programs, as a conventional lure when baiting snap traps, glue boards and live catch traps.
Restrictions of Use :NOT FOR HUMAN CONSUMPTION. Uses other than those recommended.
Manufacture/Supplier :Trapper Jack's, Inc.
785 W. 17th. St., Unit G
Costa Mesa, CA 92627
In Case of Emergency :(877) 201-6274, (949) 631-6110 (M-F 8am - 5pm PST)

2 HAZARDS IDENTIFICATION

2.1 Product hazard category

This material is NOT considered hazardous by the OSHA Hazard Communication Standard (29 CFR § 1910.1200)

2.2 Label Content

Not a hazardous substance or mixture.

2.3 Other hazards

Hazards Not Otherwise Classified (HNOC) :None known.

3 COMPOSITION/INFORMATION ON INGREDIENTS

Substance/mixture :Mixture

Component	CAS#	Concentration
Macadamia Nuts		0-100%
Cereal Grains		0-100%
Walnuts		0-100%
Molasses		0-100%
Egg		0-100%
Sugar		0-100%
Salt		0-100%

The exact composition/components have been withheld due to trade secret.

4 FIRST AID MEASURES

4.1 Description of first aid measures

Due to the composition and type of the substances present in the product, no particular warnings are necessary. The following are provided as general first aid measures.

General Advise :Seek medical attention/advice if you feel unwell.
Eye Contact :If irritation to eyes occurs wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance.
Inhalation :Product not an inhalation hazard.
Skin Contact :If irritation occurs, rinse skin immediately with plenty of water for 15-20 minutes.
Ingestion :Product does not contain pesticides or poisons. If you feel unwell, seek medical attention.

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

4.2 Most important health effects, both acute and delayed

No known acute or delayed effects from exposure to the product.

4.3 Indication of immediate medical attention and special treatment.

In case of doubt or when symptoms of feeling unwell persist, get medical attention. Never administer anything orally to persons who are unconscious.

5 FIREFIGHTING MEASURES

Suitable extinguishing media	:Water fog, foam, alcohol spray, carbon dioxide, or dry chemical powder.
Specific hazard arising from the chemical	:None
Special protective equipment for fire-fighters	:According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and gloves.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures	:This product does not require special equipment for handling under normal use.
Environmental precautions	:Product not classified as hazardous for the environment.
Methods and materials for containment and cleaning up	:No special precaution or cleanup measure are necessary. Product may be reused if spilled.

7 HANDLING AND STORAGE

7.1 Precautions for safe handling

Handle and store according to instructions on product information sheet and label.

Protective measures	:No specific personal protective equipment is needed. No smoking, eating or drinking allowed when using this product. Wash hands before breaks and at end of work shift. Follow legislation on occupational health and safety. Keep the product in containers made of a material identical to the original.
Conditions for safe storage	:Store this product in a cool, dry area. Do not store near any material with a strong odor.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Occupational exposure limits

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), OSHA (PEL).

8.2 Exposure Controls

Protective measures	:None necessary.
Appropriate engineering controls	:General industrial hygiene practice.

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

8.3 Personal Protection

Eye/face protection	:None necessary. Use equipment appropriate for surrounding hazards.
Skin protection	:None necessary. Use equipment appropriate for surrounding hazards.
Body protection	:None necessary. Use equipment appropriate for surrounding hazards.
Respiratory protection	:None necessary. Use equipment appropriate for surrounding hazards.
Hygiene measures	:Follow general hygiene measures. Wash hands thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Ensure that eyewash stations and safety showers are close to the workstation location

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Physical State	:Brown solid
Odor	:Molasses.
Odor threshold	:No information available.

Other Properties:

pH	:No information available.
Melting point/freezing point	:No information available.
Initial boiling point and boiling range	:228-230 °F.
Flash point	:No information available.
Evaporation rate	:No information available.
Flammability (solid, gas)	:Non-flammable.
Upper/lower flammability or explosive limits	:No information available.
Vapor pressure	:No information available.
Vapor density	:No information available.
Relative density	:38-40 lbs/cu. ft.
Solubilities	:No information available.
Partition coefficient: (n-octanol/water)	:No information available.
Auto-ignition temperature	:No information available.
Decomposition temperature	:No information available.
Viscosity (Kinematic)	:No information available.

10 STABILITY AND REACTIVITY

Reactivity	:The product does not present hazards by their reactivity.
Chemical stability	:Stable under the recommended storage conditions.
Possibility of hazardous reactions	:None known.
Conditions to avoid	:None known.
Incompatible materials	:None known.
Hazardous decomposition products	:None known.

11 TOXICOLOGICAL INFORMATION

Information on the likely routes of exposure	:Dermal contact. Ingestion.
--	-----------------------------

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

11.1 Potential acute health effects

Eye contact	:Possible irritation
Inhalation	:None known.
Skin Contact	:None known.
Ingestion	:Possible irritation.

11.2 Potential chronic health effects

Unlikely to cause harmful effects under recommended conditions of handling and use.

Short term exposure:

Potential immediate effects :No known significant effects or critical hazards.

Long term exposure:

Potential delayed effect :No known significant effects or critical hazards.

General :No known significant effects or critical hazards.

Carcinogenicity :No known significant effects or critical hazards.

Mutagenicity :No known significant effects or critical hazards.

Teratogenicity :No known significant effects or critical hazards.

Developmental effects :No known significant effects or critical hazards.

Fertility effects :No known significant effects or critical hazards.

11.3 Information on toxicological effects

This mixture has not been subjected to toxicological testing but has been blended from materials with established toxicological bibliographies. There is no applicable toxicity data available for this mixture.

Acute toxicity:

No data available

Skin Irritation/Corrosion:

No data available

Eye Irritation/Corrosion:

No data available

Sensitization:

No data available

Chronic Toxicity: No data available.

Germ Cell Mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Reproductive Toxicity: No data available.

Specific target organ toxicity (single exposure): Not classified.

Specific target organ toxicity (repeated exposure): Not classified.

Aspiration hazard: Not classified.

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

Carcinogenicity:

IARC	:No component of this product present at levels greater than or equal to 0.1% us identified probable, possible or confirmed carcinogen.
ACGIH	:No component of this product present at levels greater than or equal to 0.1% us identified probable, possible or confirmed carcinogen.
NTP	:No component of this product present at levels greater than or equal to 0.1% us identified probable, possible or confirmed carcinogen.
OSHA	:No component of this product present at levels greater than or equal to 0.1% us identified probable, possible or confirmed carcinogen.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

12 ECOLOGICAL INFORMATION

12.1 Ecotoxicity

No data available

12.2 Persistence and degradability

No data available about the persistence and degradability.

12.3 Bioaccumulation potential

No information available about the accumulation potential.

12.4 Mobility in soil

No information is available about the mobility in soil.

12.5 Other adverse effect

No data available.

13 DISPOSAL CONSIDERATIONS

Disposal methods	:Waste disposal should be in accordance with existing federal state, provincial and or local environmental controls laws. May be disposed of as any other non-pesticidal animal feed product.
Container handling	:Do not reuse or refill this container.

14 TRANSPORT INFORMATION

Regulatory information	UN number	Proper shipping name	Classes	Packing Group	Label	Additional information
DOT (US)	-	-	-	-	-	Non-pesticidal rodent bait / agricultural
IMDG Class	-	-	-	-	-	Non-pesticidal rodent bait/ agricultural
IARA-DGR Class	-	-	-	-	-	Non-pesticidal rodent bait/ agricultural

Safety Data Sheet

Prepared according to the (US) Hazard Communication Standard (29 CFR §1910.1200)

15 REGULATORY INFORMATION

15.1 US Federal Regulations

SARA 311/312	:None
SARA Title III Section 302 Extremely Hazardous Substances	:None
SARA Title III Section 313 Toxic Chemicals	:This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

16 OTHER INFORMATION

Date prepared: March 8, 2019
Version: 1.0

NOTE: Regardless of the type of trap or type of bait you use, TRAPPER JACK'S recommends, in the best interest of achieving the highest success ratio in your endeavor, KEEP PESTICIDES, HUMAN ODOR and OTHER FEAR STIMULATING ODORS AWAY FROM TRAPS, BAITs and LURES! The wearing of gloves when handling traps, baits and lures may substantially increase your success in professional rodent control.

CONTAINS NO PESTICIDES OR POISONS AND CAN BE USED IN FOOD PROCESSING PLANTS, HOMES, HOSPITALS, RESTAURANTS, SCHOOLS, AND OTHER AREAS WHERE THE USE OF PESTICIDES AND POISONS ARE LIMITED OR RESTRICTED.

NOT FOR HUMAN CONSUMPTION
